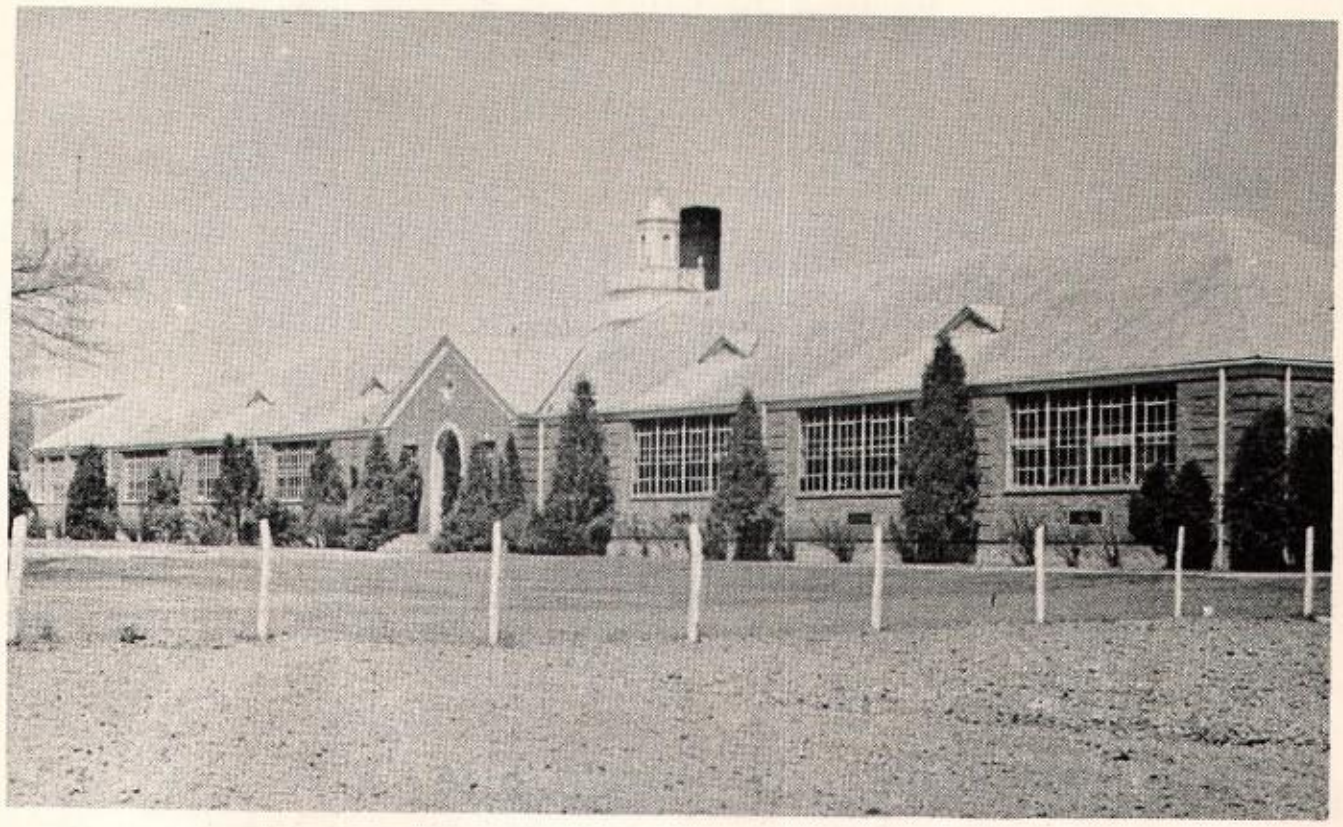
Foreword



OUR SCHOOL

THIS, the twenty-fifth edition of the LOUDSPEAKER, has been created for the same purpose as the 24 other editions. That purpose is and has been but to dip into the school life at Elkland. Your years in school have been full, so this book will only try to provide the notes from which memory can reconstruct your years at E. H. S.

Principal

YOU are about to go out into a world full of stress and unrest. Even though the times are trying ones, I feel sure that you will all go out and do your best to make the world safe for Democracy.

TWENTY-FIVE years ago the Class of 1926 was the first one to publish a year-book for our school. On this, the twenty-fifth anniversary of the LOUDSPEAKER, we dedicate our book to the pioneer class of 1926. It is an interesting fact to note that Carolyn Johnson, Class of 1951, is the daughter of Florence Freberg Johnson, Class of 1926.

In farewell we, the Class of 1951, extend our very best wishes to the Class of 1926.

Industrial Arts

THIS is the second year that we have had Industrial Arts in our school. Under the direction of Mr. William Whalen many projects have been completed by the boys of the Junior High School grades. The seventh grade boys complete two required projects in woodworking; the eighth grade boys have a limited choice in projects; and the ninth grade boys may complete an unlimited number of projects subject to the approval of the instructor. A class project has been the preparation of testing devices for the Driver Training Class.

The Industrial Arts course offers an opportunity for pupils to use manual abilities. The work done and the skills acquired will be of great use and value to the boys in future life.

Driver Training

THIS year a Driver's Training course, taught by Mr. William Whalen, has been added to the schedule of our High School. The course consists of three hours a week--one hour of classroom instruction and two hours of driving. The total of twenty hours is required to complete the course. The successful completion of the course gives each student a definite plate number to be used on the automobile license plate. In this way the Department of Revenue is able to determine just who is having automobile accidents. The course has been interesting and instructive. As a result 45 students are well trained to operate motor vehicles.

In the above picture are the students of the first of three classes instructed this year.

We wish to extend our sincere thanks to the Schultz Motor Co. for donating the use of the 1950 Ford used in the training.

Commercial

THE commercial course is continuing to grow in popularity, with the typing classes still the favorite. Another new typewriter was added this year to meet the demand for the first-year course. There are now 61 students in the typing classes, 19 in shorthand, and 18 in bookkeeping.

Although typing for personal use is emphasized in the beginning typing classes, actual office problems are set up as nearly as possible for the other commercial classes--in bookkeeping through the use of business sets; in typing with the use of budgets setting up actual office situations.

Getting Some Pointers

Home Makers

RELATED ART - the part of homemaking which makes life more pleasant and agreeable by developing the appreciation of art in our everyday lives. We have learned to use art in simple ways, how to find beauty in common things, and, most of all, how to enjoy beauty everywhere.

Nothing is more interesting and fascinating than watching children develop. Guiding and directing young children in their growing and learning is an important responsibility.

Cleaning and repairing expenses are reduced when the homemaker can take care of small emergencies which arise in regard to home mechanics.

The care and comfort of her patient is one of the greatest responsibilities of the home nurse.

Regardless of its furnishings the home affords rest and immediate satisfaction to the family only if well cared for.

LOOKING over our Soccer results of 3 victories, 2 ties, and 5 losses, one might say that we had an unsuccessful season. On the contrary many things go toward making it a success. Since this is our second year in Soccer, inexperience of the boys counted against us. With many old players back and the new material coming in our prospects look good for next year.

THE basketball season provided many thrills. After the first game which Elkland won by a good margin, many of the games were close. The main difficulty lay in the fact that the Black and Whites didn't win enough of them. We had plenty of quick thinking, accuracy, and co-operation, which are so fundamental in the makeup of a winning team. It seems hard to find just where we slipped up. We received no breaks--asked none. Since all the players but one are underclassmen, most of them will be back next year. Then, under the continued coaching of coaches Milliron and Whalen, they will bear watching. Nothing less than a County Championship will satisfy them.

Student Faculty

FOR the second year our faculty has been augmented by student teachers from the Senior Music students of Mansfield State Teachers College. Under the supervision of Mr. Seamans, Elkland Music Supervisor, and Miss Morris of M. S. T. C. these student teachers have done a fine job in our school. They completed their assignment by presenting a musical program including the pupils of the first nine grades.

WHEN reminiscing, we will remember the many good times we have had in our homemaking club. Some of these are the State Conventions, the prize winners, county meetings, initiation parties, dinners we served, field trips to various places, Knoxville-Elkland "get-to-gathers," student teachers from Mansfield, our chapter mothers, assembly programs, fashion shows, adoption of a German school, parties with F. F. A. and other holiday parties, and degrees conferred upon worthy club members, picnics at the grand Canyon, and many, many others.

Senior Play

ON December 6 and 7, 1950, the Class of 1951, under the able directorship of Mr. Clarence Heck, presented the hilarious comedy BACKWOODS ROMEO. Through the fine co-operation of faculty and members of the Senior class the play was a great success, both financially and as an entertainment.

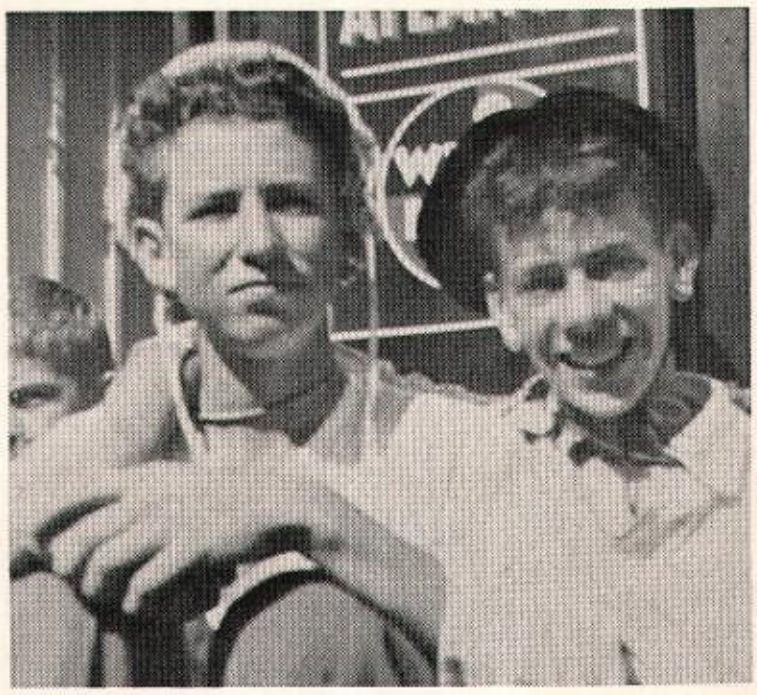
FRESHMAN INITIATION



CLASS OF 1954?

Class History

IN September 1939, 55 scared, neatly dressed children entered the first grade. Eight years went by, during which time, we lost some and gained others; but finally we made it to one of four goals--Freshmen in High School.

Forty-four entered Mr. Bower's room, as "green" Freshies. We acted as if we owned the place, happy and carefree, until we found that the seniors were our enemies. They made us come to school in all sorts of odd clothes, do funny things, and even bow to them. That was initiation--horrible at the time, but funny now. They made friends with us after that by treating us to a nice party in the gym. This made us feel a little less "green." Being nothing but Freshmen, our activities were limited, but we did have an English Club under the supervision of Mrs. Seamans.

Mr. Bower, "lucky" enough to get us for another year, had a smaller class of 35 this year. Feeling more like "old timers," we really enjoyed watching initiation that year. The best dance of the year, however, was our Sadie Hawkin's Dance. Not only did everyone have loads of fun, but also, we made our first dollars for our penniless treasury. That year, some of us who were in Glee Club took part in the memorable and successful operetta, "Marianne," under the direction of Mr. Seamans.

With four members less, we began our Junior year and spent it busily selling cards, stationery and candy. Our carefully chosen and prized class rings came before Christmas, and did we have a time showing them off! Under Mr. Barocco's supervision, we picked Don Jones and his Orchestra to play for the ball of the year, our Junior Prom. The fact that we didn't make a million from it didn't effect the idea that it was the finest, prettiest, and best prepared dance of many years. Many days were spent in its preparation, but the fun and praise we had as a result made all the work worthwhile. Remember the "Stag Dance"? It was one of the best Shin-digs of the year and was sponsored by us.

Twenty-eight of us finally made the grade and were called Seniors. Our welcoming homeroom teacher was Mrs. Robert Lugg, substituting for Mrs. Waldo Seamans for the first semester. The second semester Mrs. Seamans returned. We started the year out with a bang, letting the Freshmen know they had superiors. That was initiation. We certainly had fun that day, didn't we Freshmen? Revenge at last! Raising money for our Washington trip, at the end of the year, had us selling candy, pop, radio raffles, cards, stationery, magazines, and having record dances. Our play "Backwoods Romeo" was certainly a smash performance. It took much hard work and many rehearsals to put on such a good play, but the fun we had during its preparation will never be forgotten by any of the cast. How could anyone possibly forget this unforgettable command by Mr. Heck? "Get those lines learned." Several months after the play, under the supervision of Miss Mary L. Mannino, we put much hard work on our most valuable souvenir of our school days, THE LOUDSPEAKER. Our High School days will end with a new type of Class Day exercises under the direction of Miss Mary L. Mannino and the final Commencement directed by Mrs. Waldo Seamans. At last we shall have our diplomas for which we have striven so many years.

100 YEARS OF FASHIONING NEW THINGS IN GLASS

Picture a world without such things as the electric light, the traffic signal, heat-resistant laboratory glassware, and glass cooking ware. All these things are basic parts of modern civilization. Yet one hundred years ago, not a single one existed.

That they do exist to serve us today is to a great extent the responsibility of Corning Glass Works.

The year 1951 marks the one hundredth year that Corning Glass Works has been engaged in making improved forms of glass for use in the home, industry and the school.
